EXAMINER'S AMENDMENT

1. Newly submitted claims 56-57 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons, among a plurality of other reasons: no by-pass is recited; products only transfer once, i.e. there is only one flexible member(s); gravity fall is new.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 56-57 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

Claim(s) 56-57 have been cancelled.

4. This application is in condition for allowance except for the presence of claims 56-57 directed to invention(s) non-elected without traverse. Accordingly, claims 56-57 have been cancelled.
